

You Just Crossed the Line!

This will be an interesting meeting with a chance for pilots to get a refresher on operating into a towered field and a review of Airport Signage. Our special guest speakers from the ABE Control tower will bring a wealth of experience and knowledge to our discussions. Another purpose of this meeting is to assemble the individuals who actively engage in the movement of aircraft and vehicles on the Lehigh Valley International Airport (ABE) Operations Area (AOA). During which time a locally focused open discussion on how to improve runway safety can occur. We will discuss the operation of the airport, from both the control tower and the user perspective. Please register for this exciting event online today!! Coffee and sweets will be available!

Directions: Please see map link for directions, classroom will be set up in hangar.

A message from the National FAASafety Team Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at www.FAASafety.gov!
